

Bacillus Thuringiensis var. Israelensis

1200 ITU/μL SC

ACTIVE INGREDIENT

Bacillus Thuringiensis var. Israelensis

Bio-potency: This product contain 1200 Bti ITU/μL

Creat a Chemical-Free World

INTRODUCTION

Bacillus thuringiensis var. israelensis (Bti) is a bacterium which occurs naturally in the environment. It has a highly specific mode of action and effectively kills developing mosquito larvae. Bti has no demonstrated adverse affects on birds, mammals, fish or other wildlife. It does not reproduce in the environment. Bti will not provide extended control and re-treatment is required to control and re-treatment is required to control the subsequent larval development.

DIRECTION FOR USE

SURFACE	DOSAGE
clear stagnant water with slight infection of mosquito	1-2 mL per m ³ water
roadside ditches, flood water, standing pools, catch basins, pastures, storm eater retention areas, tidal water, salt marshes and rice fields, etc.	
polluted water (such as sewage lagoons, animal waste lagoons), infected and dirty water with high content of organic material	3 mL per m ³ water

According to dosage of the table, put the liquid formulation of Bti in a sprayer and dilute to 1-2 tenth with water, then spray uniformly over the surface of water where mosquito larvae are emerged. The larvae of mosquito will be killed within 24 hours. Reapply every 6-11 days for best results. **NOTE: Shake up the bottle before using it.**

PRECAUTIONS

Do not spray on foods. Do not use for other purposes.

If clothing or body surface gets contaminated, rinse it throughly with water. If eyes get contaminated, hold eyes open and rinse gently with water for 2-3 minutes.

STORAGE

The suspension is stable in room temperature and can be stored for 2 years.

有效期 Effective period: 24 months

Mosquito species effectively controled by Bacillus thuringiensis var. Israelensis

Aedes aegypti
Aedes albopictus skuse
Aedes togoi theobaid
Culex spp.
Ochlerotatus meianimon (Aedes meianimon)
Ochlerotanus stimulans (Aedes stimuians)
Ochlerotatus nigromacutis (Aeds nigromacutis)
Psorophora columbiae
Psorophora ferox
Ochlerotatus triseriatus
Ochlerotatus sollicitans.....
